Datasheet

PAS-CS06W | 6W Dual-Cone 5" Ceiling Speaker with Rimless Design

Key features

- 5" full-range driver for high-quality audio reproduction
- 6W transformer for efficient public address integration
- Rimless, elegant design for seamless installation
- Aluminum grille for durability and corrosion resistance
- Fast-mount system for quick and easy installation

Product Overview

The Macsys PAS-CS06W is a 6W Ceiling Loudspeaker designed for high-quality audio performance in various environments. Featuring a 5-inch full-range driver, it delivers clear and balanced sound for both music and speech applications.

With its rimless, modern design, the PAS-CS06W seamlessly integrates into any space, offering a sleek and unobtrusive appearance. Its construction ensures durability, making it suitable for indoor installations

The fast-mount installation system allows for quick and hassle-free setup, while the aluminum grille provides enhanced protection against moisture and corrosion. The integrated 6W transformer supports public address systems and background music applications, making it an ideal choice for offices, retail spaces, hotels, and more.

Technical Specification

Feature	Details
Item Name	6W Ceiling Loudspeaker 5" Rimless
Rated Power	6W
Driver Unit	5-inch Full-Range Speaker
Impedance	100V Line / 70V Line Compatible
Material	Aluminum Grille, ABS Housing
Mounting Type	Fast-Mount Installation
Design	Rimless, Elegant Aesthetic
Application Areas	Indoor & Outdoor, Bathrooms, Kitchens, Commercial Spaces
Rated output (100V line)	3/6W
Rated output (70V line)	1.5/3W
Sensitivity (1W/1M)	92dB
Maximum SPL @ 1M	99dB
Frequency range	100Hz~16KHz
Mounting cutout diameter	Dia 140mm
Overall dimensions	Dia160×55mm(H)
Mounting method	Inceiling
Casing material	ABS
Net weight	0.5kg
Surface color	White
Speaker configuration	5" ×1 full range
Certification	CE, RoHS Compliance
